- Maintains air flow of wire shelving but with greater strength for heavier storage

### Certifications

NSF Certified

## Technical Data

Type	Shelving Kits Shelving Units
Usage	Stock Rooms Warehouse

### Notes & Details

Maximize your establishment's storage space with this Regency four shelf chrome heavy-duty dunnage shelving unit! This unit features (4) 24" x 36" heavy-duty dunnage shelves and (4) 74" posts to create a reliable storage solution for stock rooms, warehouses, and other dry environments. Boasting a rugged chrome construction, this heavy-duty unit ensures exceptional durability and long-lasting use in your facility. With an open design to ensure proper air flow around your stored supplies, this unit provides the same benefits as wire shelving, but with greater strength for heavier storage.

Each shelf features rugged square tubing combined with a removable wire mat for easy, yet thorough cleaning. The shelves are adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This unit can hold up to 3200 lb. total or 800 lb. of evenly distributed weight per shelf, making it the perfect place for storing bulk ingredients and heavy supplies.

Thanks to the attached leveling foot, each of this kit's 4 included posts can easily be adjusted to accommodate uneven surfaces. These caps also prevent damage and marking to your floors.
