Notes & Details

It's easier than ever to take apart, transport, and set up your Regency shelving with the 74" knock down chrome post! This post conveniently unscrews in the middle to form two smaller halves that are easier to move, if needed, and can be easily reassembled without tools whenever you need the full sized post again! Plus, it has convenient inch markings so you can easily remember your preferred shelf spacing.

This post is only to be used with shelving when it is in its full 74" position; post halves should not be used independently to support shelving units. Compatible only with screw-in casters (sold separately).
