Notes & Details

Easily organize your restaurant's kitchen or your store's display shelves with this Regency 6 3/4" chrome ledge hook. This hook easily clips onto your Regency wire shelving, providing simple and instant installation! Enjoy flexible mounting options with this hook, as it can be attached anywhere along the width or depth of designated wire shelving units.

This hook has a 6 3/4" long prong that allows you to hang multiple items on one hook. In your kitchen, organize pots, pans, strainers, spatulas, or tongs by hanging them from this hook. Thanks to the thin prong design, you can even hang utensils with small loops. You can also use the hooks for chef hats, coats, and aprons for quick grab and go accessibility. In retail locations, spruce up your wire shelving displays by showcasing hats, handbags, necklaces, scarves, and more on this hook.

Behind the scenes, save valuable storage space in your janitorial closet, by using this hook to hang brooms, dust pans, mops, or wet floor signs. This hook is ideal for dry environments. The chrome finish has a clear epoxy coating that identically matches chrome shelving, making this hook an excellent accessory for existing units.
