Type	Shelving Kits
Usage	All Environments Dry Environments Kitchens Moist Environments Walk-Ins

Notes & Details

Keep your storage area organized with the Regency 12" x 24" NSF green epoxy 5-shelf kit! This kit includes (5) 12" x 24" wire shelves and (4) 74" posts, which allow you to create a convenient storage solution for your janitorial closet, warehouse, or walk-in cooler. For maximum versatility, the epoxy coating allows for use in either dry or moist environments, making the unit a multipurpose investment that's sure to accommodate your ever-evolving needs. Plus, the unit's high-quality design is commercial grade and delivers the reliable performance every business expects and needs.

Each shelf features a wire construction, which allows for proper air flow around the stored supplies, products, or ingredients. They're adjustable, too; since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

Split sleeves are provided for each shelf, and each shelf accommodates up to 600 lb. of weight. Likewise, a foot is provided for each post and must be used for proper installation. The shelving unit requires assembly.
