Notes & Details

Keep kegs of your most popular brews stored safely and securely off of the ground and out of the way with this Regency green epoxy keg rack! It features a green epoxy construction that makes it an excellent choice for walk-in coolers or other humid environments like seaside bars. At 60" long and 18" wide, this keg rack has plenty of space and a design that's strong enough to reliably support up to three 1/2 size kegs, or other combinations of keg sizes!

The rugged dunnage shelves not only provide impressive strength, but also feature wire mats that promote airflow and can be removed for easy cleaning. A 3-sided frame is also included to give this unit even greater stability while also preventing kegs from sliding off the back of the rack. This keg rack ships knocked down for savings on shipping and is incredibly simple to assemble. Thanks to its epoxy-coated construction, it is a great choice for walk-in cooler storage. The shelf can hold up to 800 lb.
