## Notes & Details

Create a space for utensils with this Regency 4" green epoxy utensil holder. This unit is great for air drying and organizing utensils. It conveniently hooks onto your Regency wire shelving, providing a secure hold that can withstand frequent use and saving your business valuable shelf space. You can also move and adjust the holder over and over again as your storage needs change, making it easy to customize your shelving unit to meet your business's unique requirements. This easy removal will come in handy when you need to clean your holder or your shelves. Designed to maximize your shelf capacity, this functional utensil holder is sure to create efficient and valuable storage space for your commercial kitchen.

Made of strong green epoxy-coated wire, this utensil holder is designed to add convenience, function, and style to your Regency shelves. Its green epoxy finish is ideal for use in wet or dry environments and will match perfectly with your Regency green epoxy shelving unit. The perfect fit for your commercial kitchen, this holder makes storage simple by allowing you to keep your shelves and utensils organized at all times. This is best suited for items with heads at least 1" wide. Make the most of your shelf space with this Regency utensil holder!
