Certifications

Technical Data

Number of Shelves	1 Shelf
Rack Style	Mobile
Type	Dunnage Racks Racks
Usage	Heavy Duty Kitchens

Notes & Details

To safely store your heaviest ingredients and other products, look no further than this Regency 24" x 36" heavy-duty mobile green dunnage rack with mat! The rugged epoxy-coated green construction combines with a coated wire mat to give you a perfect storage solution for walk-in coolers or humid dish rooms, providing the same airflow benefits as wire shelving but with greater strength for heavier storage. With an 800 lb. capacity, this rack allows you to confidently store heavy fruit cartons, kegs, and other hefty supplies with ease. For added convenience, the wire mat can be removed for a simple yet thorough cleaning.

Each of the four 8" tall green wire shelving posts come caster ready so you can install the included 5" polyurethane casters. Since the casters have brakes, you'll be able to transport your dunnage rack from one side of your cooler to the other, and lock it in place when not in use. If you're looking for a durable shelving solution for your establishment, this heavy-duty dunnage rack gives you the reliability you've come to expect from Regency Space Solutions, for a price you can afford. This unit ships unassembled to provide the best possible savings on shipping costs.
