Notes & Details

Keep your storage area organized with this Regency 18" x 72" NSF green epoxy shelf kit. This kit includes (3) 18" x 72" wire shelves, (4) 34" posts and (1) 1/2" thick food grade plastic removable shelf insert on the top shelf, which allow you to create a convenient storage solution for your restaurant, hotel, bar, warehouse, or garage. Since this shelving unit has a green epoxy coating for increased longevity, it's the perfect choice for use in any storage or display environment, including moist ones because it is corrosion-resistant. Able to accommodate an impressive 450 lb. of evenly distributed weight, this unit's shelves can be used for displaying everything from lightweight boxes of pastries to heavier items like cans of ingredients. Plus, the removable plastic insert creates a solid base on the top shelf that doubles as an excellent cutting board surface. For easy accommodation on slanted, uneven surfaces, the posts also include adjustable leveling feet.

This kit boasts an attractive wire construction that works well in front-of-house merchandising as well as display spaces in your boutique, market, or other business venue. Its wire shelves also do a great job of facilitating proper air flow around your stored supplies, helping to prolong the shelf life of food. The shelves are easy to move higher or lower depending on your organizational needs since the posts are marked in regularly-spaced intervals and use a split sleeve system of assembly. If you want all shelves within the unit to have removable plastic inserts, you can easily add additional inserts (sold separately) to complete the set. This kit is especially great for expanding businesses whose needs evolve as their product inventory expands!

 **WARNING:** This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).
