Type	Shelving Kits
Usage	All Environments Dry Environments Garage Kitchens Moist Environments Outdoor Stock Rooms Walk-Ins Warehouse

Notes & Details

Maximize your storage space and organization with this Regency shelving kit. This kit includes (4) 64" stationary posts, (3) 21" x 36" wire shelves, (1) 21" x 36" solid stainless steel bottom shelf, and 16 pairs of split sleeves. Whether you're in a kitchen, retail, or industrial environment, this shelving unit is a reliable and efficient storage solution.

This versatile shelving kit can accommodate up to 700 lb. per shelf of evenly distributed weight, making it perfect for storing a variety of items such as spices, small kitchen appliances, cleaning supplies, or ingredients. The upper 3 stainless steel wire shelves allow for proper airflow around your stored products, helping to maintain freshness and prevent damage. The solid bottom shelf is made of durable 18-gauge, type 304 stainless steel with slightly raised edges to keep stored items contained, helping to prevent messes from spills or leaks. The solid bottom shelf not only provides added stability but also prevents dirt and debris on the floor from getting onto your stored items, maintaining cleanliness and organization in your workspace.

Made entirely of stainless steel, this shelving kit is corrosion-resistant with a high-quality, commercial-grade build. This makes it perfect for any location and application where storage is needed. Its adjustable shelves accommodate products of various shapes and sizes, offering flexibility for your storage needs. The included split sleeves make assembly a breeze and each post comes equipped with an adjustable leveling foot, providing a secure and stable unit. To assemble, simply snap 2 split sleeves around each post at one of the incrementally notched lines. After you snap the split sleeves on, fit the shelf down over each post to hold it in place.

Kit Includes:

- 21" x 36" NSF stainless steel solid shelf
- (3) 21" x 36" NSF stainless steel wire shelves
- (4) 64" stainless steel stationary posts
- (16) Pairs of split sleeves
