Regency Stainless Steel Post Clamp

#460SSPCLAMP

Technical Data

Post Diameter	1 Inch
Color	Silver
Material	Stainless Steel
Type	Clamps and Clips

Features

- Fits Regency, Metro, and other standard posts for seamless compatibility
- Secures posts for stronger shelving setups
- One-piece stainless steel construction offers durability and easy handling

Notes & Details

Effortlessly secure and stabilize your shelving systems with this Regency stainless steel post clamp. This durable, one-piece clamp is the perfect solution for joining two posts side by side, providing additional support for shelving units or other structural assemblies. Designed to fit seamlessly with your existing Regency stainless steel posts, it is also compatible with Metro posts and other popular brands, offering versatility for various setups.

Constructed from high-quality stainless steel with a single-piece design, this clamp delivers reliable strength and durability, ensuring long-lasting performance in commercial environments. Whether you're rearranging your shelving or creating a new configuration, this clamp is a practical accessory for maintaining stability and functionality in your space.
