Notes & Details

Ensure your storage area or aisles stay organized with this Regency 30" x 12" x 6" black plastic display base / side stack. This side stack is a great way to organize, store, or display products on endcaps or in storage areas. It allows you to keep extra supplies on hand and ensures your establishment maintains an orderly system. This side stack is constructed of durable polyethylene that won't crack, chip, rust, bend, or break, and it offers smooth edges to reduce the chance that your bags and products will rip or tear open.

With a 6" height, this side stack meets HACCP requirements for food storage, and it offers antimicrobial protection. Because it is made from plastic, this side stack is also suitable for both dry and cold storage areas, and it has an ample capacity of 750 lb. for all your storage needs. It's great for storing heavy bulk goods, liquids, and dry goods, and you can even move the side stack around using a forklift or pallet jack to save time thanks to its two-way entry. Best of all, this side stack ships fully assembled so you can use it right away!
