## Notes & Details

This 14" x 60" black epoxy coated wire shelf is ideal for use in a wide array of applications. Its sleek black color and simple, classic design make it a great choice for use in retail environments and dry storage, while the epoxy coating is great for use in all environments including refrigerators, freezers, and ware washing areas. When combined with additional shelves, posts, and accessories (sold separately) this Regency shelf is capable of holding up to an impressive 450 lb. of evenly distributed weight.

This shelf is constructed of durable zinc-plated metal with a black epoxy coating for maximum longevity. Plus, its high-quality design is commercial grade and delivers the reliable performance every business expects and needs. The open design of this shelf coupled with the ability to move it to different heights facilitates ventilation and maximizes air flow between and around products.

This shelf comes with 4 pairs of split sleeves for quick and easy setup and installation. To assemble, simply snap 2 split sleeves around each wire post at one of the incrementally notched lines. After you snap the split sleeves on, fit the shelf down over each post to hold it in place.
