Notes & Details

Keep your storage area organized with the Regency Spec Line 18" x 60" NSF stainless steel mobile shelf kit! This kit includes (4) 18" x 60" solid shelves and (4) 64" mobile posts, which allow you to create a convenient storage solution for your janitorial closet, warehouse, or stock room. Thanks to the mobile design, this shelving unit can be conveniently wheeled around your facility! Unlike wire shelving where small components may slip through the cracks or leaking packages may contaminate products on lower shelves, these solid shelves allow you to confidently store products of any type and size.

Whether you need to store bulk ingredients, heavy prep tools, cleaning supplies, or even small industrial components, these spacious shelves give you plenty of room to store all of your essential supplies. They're adjustable, too! Since the posts are marked in intervals and use a split sleeve system of assembly, the shelves are easy to move higher or lower along the posts. This is especially great for expanding businesses that may not have finalized their product offerings.

16 pairs of split sleeves are provided, and each shelf accommodates up to 500 lb. of weight. Likewise, a caster is provided for each post to mobilize the unit for easy cleaning and transportation. Made of durable 18 gauge, 304 stainless steel, this commercial-grade shelving unit is sure to provide the reliability you need. The shelving unit requires assembly.

 **WARNING:** This product can expose you to chemicals including lead, which are known to the State of California to cause cancer and birth defects or other reproductive harm. For more information, go to [www.p65warnings.ca.gov](http://www.p65warnings.ca.gov).
