Notes & Details

Enhance the efficiency of your bar setup with the Regency Spec Line cocktail station. This complete bar station can hold up to 12 bottles of liquor at a time. The speed rail provides immediate access to frequently used liquor and mixers, ensuring smooth and swift service during peak hours. Crafted from durable stainless steel, this cocktail station is built to withstand the rigors of a busy bar environment, making it a reliable addition to any commercial bar setting.

This unit has an 18 gauge, type 304 stainless steel underbar hand sink as well as stainless steel legs and U-shaped cross bracing for maximum durability. It has holes punched on 4" centers for simple faucet installation (sold separately). Plus, it has a tall 7" backsplash, which helps prevent splashes and overflow. It has a 1 1/2" IPS drainage connection to safely drain wastewater during use. Stainless steel sockets and bullet feet provide stability. The 5-tier liquor display rack expands your available liquor selection and provides a sleek presentation for bottles up to 3 5/16" in diameter.

This unit also has an insulated underbar ice bin that comes equipped with a 1" drain, along with 2 plastic bottle holders for organized storage. It has a 119 lb. capacity and not only holds plenty of ice but also boasts a post-mix cold plate with stainless steel, beverage-grade tubing circuits that allow you to run up to 10 soda lines through the bin to chill them before serving. Elevate your bar service with this efficient and durable cocktail station that is designed to streamline operations and enhance the overall customer experience!
