Notes & Details

Choose a reliable product with this Regency four-bowl underbar sink. This unit comes standard with two 19" drainboards for efficient washing and drying of your barware. These drainboards are ideal for drying clean glasses or piling dirty glasses. The grooved surface helps keep glassware in place while the excess water is drained. The four sink bowls are deep and accommodate a large variety of glassware, including pitchers and taller glasses. As an added convenience, it features a 3" high backsplash to protect your bar from spills and splashes.

This sink offers a durable 18-gauge type 304 stainless steel construction along its top, bowl, and back. It also sports a 20-gauge type 304 stainless steel apron. For maximum stability, the galvanized steel legs are cross-braced and feature plastic bullet feet. Four 2" drains with 1 1/2 IPS drain connections allow water to drain safely during use. This four-bowl underbar sink has holes punched on 4" centers for two separate faucets (sold separately).
