- 34" long (with caster)
- 18 gauge galvanized steel construction
- Includes 5" non-braking swivel caster (raises height 6")
- 1 5/8" outside leg diameter

Notes & Details

This Regency leg and caster kit makes it easy to turn your stationary worktable into a mobile one, or if you've already done this you can use it to replace a broken component. The leg is cut down to 28" long, so that when the caster is installed on the end and the leg is installed on the table, it will maintain the same working height that the table started with when using standard stationary legs. The leg is made from durable 18 gauge galvanized steel to provide a solid base, and the 5" stem caster makes it easy to move the table for routine cleaning and changes to the kitchen layout. The caster does not include a brake.
