Type	Dishtable Packages

Notes & Details

This dishtable package from Regency Tables & Sinks brings an incredible combination of performance, quality, and convenience that is sure to boost the efficiency in your kitchen! It comes with a 6' clean dishtable, 6' soiled dishtable, pre-rinse faucet, scrap basket with slides, and 62" tubular rack shelf. The dishtables, basket, and shelf are made of type 304 stainless steel, making this unit a durable, corrosion-resistant package that is sure to last over the long haul.

The soiled dishtable features a spacious 20 1/4" x 20 1/4" x 6" pre-rinse bowl, while the clean dishtable boasts plenty of space to accommodate a dish rack coming out of your dishwasher, providing a convenient resting place until you're ready to unload. Both 16 gauge type 304 stainless steel tables feature 10 3/4" high backsplashes to protect your walls, along with 1 5/8" diameter stainless steel legs with stainless steel sockets, gusset channel, and bullet feet for added durability. The soiled dishtable has holes punched on 8" centers to allow for easy installation of the included pre-rinse faucet.

The pre-rinse faucet includes a 44" long hose for tremendous reach and a low flow rate of 1.15 GPM to effectively rinses excess food and sauces off of dishes. Its spring action, flexible gooseneck is easily secured to the wall with its 12" wall bracket, and the sprayer head can be kept in place thanks to a handy hook. For quick identification and easy use, the faucet handles are labeled and color coded for hot and cold. Plus, the chrome-plated brass construction looks great in any setting!

An included scrap basket fits comfortably into your soiled dishtable's pre-rinse bowl, effectively preventing scraps and food debris from clogging sink drains. It features 2 slider rails that allow you to effortlessly slide dish racks over the top. Its 18 gauge type 304 stainless steel construction offers outstanding durability.

Made of 1 5/8" diameter tubing, the sturdy 62" rack shelf securely supports 2 glass racks. For added versatility, the shelf can hold racks flat or at an angle to accommodate virtually any dish room setup. This tubular rack shelf comes unassembled, offering a great savings on shipping expense. It's constructed with no welds and is supplied with stainless steel mounting bolts (hardware not included). Ensure fast, efficient dish room operations with this comprehensive dishtable package!
