Notes & Details

Increase your kitchen's workspace with this Regency 24" \times 30" stainless steel equipment stand! Great for use in your busy food service operation, this stand provides extra space to help maintain a clean and organized environment. Its durable 16-gauge type 304 stainless steel top is built to withstand daily use in your facility, while its impressive 700 lb. capacity makes it well-suited for your heavy countertop equipment. Plus, a 2" high edging comes standard to help contain equipment for added safety.

This unit also features a galvanized steel undershelf with a hat channel to provide additional storage space. With an impressive 540 lb. weight capacity, this shelf allows you to confidently store your equipment and heavier kitchen supplies while freeing up valuable countertop space in your facility. For added stability, this unit stands on sturdy galvanized steel legs with bullet feet.
