Notes & Details

Keep your restaurant up to code without sacrificing space with this hand sink with a single 9" x 9" x 4" bowl and a convenient 8" high back splash. This easy-to-clean, compact sink easily fits in tight spaces and securely attaches to the wall or a surface to open up floor space for other uses. Comprised of high-quality 20 gauge type 304 stainless steel along its top, bowl, and backsplash, this hand sink guarantees reliability and durability. In addition, this material is corrosion-resistant when properly maintained.

For proper drainage, a removable 1 1/2" IPS drain basket is included to eliminate the possibility of drain clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacements costs. With an 8" high backsplash, any water splashes are confined inside the sink and directly drip down the drain. This helps maintain the integrity of your wall and floor to keep your establishment in top condition. For convenience, a Regency 8" gooseneck faucet with 1.2 GPM aerator is included with this hand sink for excellent reach and clearance. This hand sink has 2 holes punched on 4" centers to accept the included gooseneck faucet.
