Material	Stainless Steel
Number of Compartments	1 Compartment
Number of Faucets	1 Faucets
Spout Type	Gooseneck
Stainless Steel Type	Type 304
Type	Hand Sinks
Water Inlet Size	1/2 Inches

Notes & Details

This Regency hands-free hand sink with a pedestal base is an ideal hand washing station for commercial kitchens and industrial locations! Whether it is needed in a kitchen, healthcare facility, or even auto garages and other potentially messy environments, this sink helps ensure that germs, bacteria, grease, and other dirt is washed down the drain instead of stuck clinging to faucet handles.

Thanks to a convenient foot pedal, this unit provides you with a hands-free package that helps prevent the transfer of germs, bacteria, and other contaminants. It is incredibly simple to operate, allowing you to press the pedal with your foot to send a steady stream of water out of the faucet to wash your hands with. The sink is made from 18 gauge type 304 stainless steel for a design that is both rugged and economical. A screw on the side of the foot pedal valve makes adjusting the water temperature a breeze.

The 5" deep drawn bowl and 6 1/16" gooseneck faucet with 1.2 GPM aerator offer a seamless design with coved corners that protect against unsanitary buildup. This sink also includes a p-trap as a helpful addition to make installation easier, immediately upon delivery. To protect walls from spills, this sink comes with an 8" backsplash. For even greater convenience, a 1 1/2" drain basket and strainer are also included.
