Type	Hand Sinks
Water Inlet Size	1/2 Inches

Notes & Details

Make sure that staff members always have clean hands by using this Regency hands-free sink in your kitchen or service area. This easy-to-clean, compact sink easily fits in tight spaces and securely attaches to the wall or a surface to open up floor space for other uses. Since it uses a knee pedal for operation, it ensures that employees do not need to touch any handles to turn off the water after their hands are clean.

This sink comes standard with a single 14" x 10" x 5" bowl and 6 1/16" gooseneck faucet, perfect for a hand washing station in your restaurant or bar. This sink offers an economical, 20 gauge type 304 stainless steel construction for its top, bowl, and backsplash, in addition to an 18 gauge type 304 stainless steel body and wall mount clip. Even with heavy, everyday use, it will prove a reliable addition to any facility. This sink comes standard with a 1 1/2" IPS drain basket.

The easy-to-use, knee-operated valve ensures sanitary operation and a simple installation. A screw on the side of the pedal valve allows for easy adjustment of the water temperature. This hands-free design helps to eliminate cross contamination risks, keeping your facility clean and your staff and patrons safe and healthy!
