- Stainless steel construction
- Works to securely fasten sink to wall

Notes & Details

Within any foodservice operation, a hand sink should be one of the most frequented stations for all your employees. In a high volume commercial setting, this sink must not only be equipped with necessities such as soap and paper towels, but with a strong, sturdy bracket that ensures the sink will stay on the wall at all times. Compatible with Regency's 600HS17 sink models, this hand sink bracket works to securely fasten your sinks to a solid surface, to allow for repeated and worry-free use. Its Z-style design will anchor a compatible sink with ease.
