Temperature Rating	140 Degrees Fahrenheit
Type	Hand Sinks
Water Inlet Size	1/2 Inches

Notes & Details

Ensure that your hands-free hand washing sink is ready for use with this Regency hand sink! Made of rugged 16 gauge type 304 stainless steel, the sink is not only rust- and corrosion-resistant, it's extremely durable and built for everyday commercial use. This wall mounted sink station includes 1 set of holes for single-hole faucets. The spacious 8" deep sink bowl is designed to maintain cleanliness in your business and prevent the spread of germs.

For ease of use on day one, a wall mount hand sink faucet with a 6" gooseneck spout is included. The tall, swivel design of the faucet provides plenty of clearance for comfortable hand washing, and the durable, chrome-plated brass construction ensures longevity. Plus, the faucet has a single, 1/2" NPT female inlets that installs directly to your sink's water line.

This package comes with a single pedal knee valve and knee valve bracket to hold the valve in place. Faucet handles are a key contact point for the spread of germs since many people touch them frequently, so having a knee valve improves sanitation by removing the handles and allowing you to operate the water flow with a convenient pedal system. It has a 3/8"-18 NPT inlet to connect to your water lines, and a 3/8"-18 NPT outlet to connect to your faucet.

Kit Includes:

- (1) Regency 18" x 17 1/2" single-hole hand sink for 1 wall mounted faucet
- (1) Regency wall mount hand sink faucet with 6" gooseneck spout
- (1) Regency single pedal knee valve
- (1) Knee valve bracket
