- Includes adjustable stainless steel bullet foot
- Set-screw installation makes assembly easy

Notes & Details

Perfect for enhancing the durability and look of your commercial kitchen, this Regency stainless steel leg serves as an upgrade for all sinks with 12" deep bowls that are fitted with galvanized legs as it allows for increased corrosion resistance for the unit. Or, it can be used to replace the existing worn or damaged component with incredible ease!

Measuring 20 1/2" long and equipped with adjustable stainless steel bullet feet to accommodate uneven floors, these 18 gauge stainless steel legs provide your sink with a solid, reliable foundation to rest upon so you always have somewhere to do prep work or wash, rinse, and sanitize dirty dishes. Each leg also installs using a simple set screw so setup is quick and easy.
