Notes & Details

Provide a handwashing station at your food truck, outdoor catering event, or festival with this Regency single bowl cold water hand sink cart! This sleek-looking stainless steel cart includes a soap, sanitizer, and paper towel dispenser for a proper sanitation station. Featuring a 5 gallon removable fresh water tank and a 7.5 gallon waste water tank for self-contained operation, this unit has a water inlet connection that can be hooked directly to a 3/4" standard garden hose connection or draw from the portable water tank for ease of use. A deck-mounted faucet (sold separately) is required for use.

Designed to supply only cold water, this unit saves on electricity and requires less maintenance than comparable models with a water heater. This cart boasts a 18 gauge, 304 stainless steel body with a lock and key swing door so you can store away backup supplies without worry of them being taken. Plus, this sink cart ships fully assembled so that it's ready to use right away.
