Notes & Details

Ideal for washing pots or prepping food, this Regency 22" 16-gauge stainless steel one compartment commercial sink with faucet is a great addition to your busy commercial kitchen. It is constructed from high-quality, NSF-listed, 16-gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18-gauge material. This sink also features a welded construction for long-lasting use and overall strength.

Featuring a flow rate of 2 GPM and a 1/2" NPT connection, the included faucet is great for quickly filling up buckets and sink compartments for dishwashing and other general cleaning tasks. It has a chrome-plated copper construction that's attractive and easy to keep clean. The 12" deep bowl is die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes a 3 1/2" basket strainer to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 10" tall backsplash is included with (2) 1 1/8" diameter holes punched for easy installation of the included faucet. This sink also comes complete with a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter galvanized steel with galvanized leg sockets and adjustable plastic feet so you can install this sink to best fit your needs. The deck height is approximately 34".
