Notes & Details

Outfit your facility with a long-lasting sink that will meet your needs with this Regency one compartment commercial sink. This durable sink is made of high-quality, welded 16-gauge, type 304 stainless steel for durability, corrosion resistance, and long-lasting use. It includes a durable, attractive chrome-plated copper faucet with an 8" gooseneck spout, offering plenty of clearance for filling up buckets or sink compartments for dishwashing and other cleaning tasks. This faucet has a flow rate of 1.2 GPM and a 1/2 NPT connection, and it has 2 easy-to-turn, labeled, color-coded handles for hot and cold water. The 10" backsplash includes (2) 1 1/8" diameter holes punched on 8" centers for easy faucet installation.

This unit has a 17" x 17" x 12" sink bowl die-stamped to a minimum of 1/4" for proper drainage. The included 3 1/2" basket strainer catches food debris to prevent the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink. This sink also includes a 1 1/2" raised, rolled edge that raises to 2" on the front and both sides to contain splashes and overflow. The 1 5/8" diameter stainless steel legs have stainless steel cross bracing, sockets, and bullet feet for added stability. Designed for medium-duty use, this Regency sink is ideal for most restaurants.
