Notes & Details

Wash dishes with ease when you use this 53" two compartment prep / pot sink without drainboard from Regency Tables and Sinks. Made of high-quality 16-gauge type 304 stainless steel for reliable service, this gauge is thicker and much more durable than many similar sinks available that are made of 18-gauge stainless steel. Additionally, type 304 stainless steel is exceptionally corrosion-resistant and easy to clean!

Each compartment offers rounded corners and ample space to either wash, rinse, or sanitize your dishes as needed. In addition, each drain includes a 3 1/2" basket strainer to eliminate the possibility of clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacements costs.

Thanks to the high backplash, water splashes will be confined inside the sink and then directly drip down into the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. Plus, this hand sink has two holes pre-punched to accept the faucet of your choice (sold separately). The deck height is approximately 34".
