## Notes & Details

Outfit your facility with a long-lasting sink with this Regency 124" three compartment sink with 2 drainboards. It's constructed from high-quality, 16 gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18 gauge material. This unit features (2) 24" drainboards so you can easily wash and dry dishes and utensils in one convenient location. They're also dipped a minimum of 1/4" to facilitate better drainage. The welded construction contributes to the long-lasting use and overall strength of this sink / drainboard combo.

The 14" deep bowls are die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes 3 1/2" basket strainers to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 10 3/4" tall backsplash is included with (4) 1 1/8" diameter holes punched on 8" centers to accommodate 2 faucets (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. This model also has galvanized steel legs and adjustable plastic bullet feet to keep the sink level and stable. These features serve to prolong the life of your sink while adding exceptional strength to the unit.
