Notes & Details

Outfit your facility with a long-lasting sink with this Regency 106" 4 compartment sink with 2 drainboards. It's constructed from high-quality, 16-gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18-gauge material. This sink features (2) 18" drainboards so you can easily wash and dry dishes and utensils in one convenient location. They're also dipped a minimum of 1/4" to facilitate better drainage. Welded construction contributes to the long-lasting use and overall strength of this sink / drainboard combo.

The 14" deep bowls are die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, this product includes 3 1/2" basket strainers to catch food debris, which prevents the drain from clogging. For easy cleaning, each compartment has rounded corners so you can rinse and wipe down the sink.

A 10 3/4" tall backsplash is included and comes complete with 2 sets of 1 1/8" diameter holes punched on 8" centers to accommodate a faucet (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter stainless steel with stainless steel cross-bracing and adjustable stainless steel feet for added stability. These features serve to prolong the life of your sink while adding exceptional strength to the unit.
