Notes & Details

This stainless steel commercial 30" x 24" equipment filler table with a 4" high backsplash and undershelf is designed to help you maximize the space in your kitchen. The top shelf is made of durable and easy-to-clean 18-gauge type 304 stainless steel, offering excellent durability and a professional looking finish. With its thin footprint at just 24" in width, this table easily fits between kitchen equipment to provide important extra work space for light food preparation, storage supplies, and other tasks within your business.

The work table's adjustable undershelf is constructed from 18-gauge galvanized steel and is further supported with aluminum corner brackets. A 4" high backsplash is included to help protect walls and contain items on the work top. The legs of this work table are 1 5/8" in diameter and are also made of galvanized steel, with plastic feet that are adjustable up to 1".
