Notes & Details

Wash, prep, or clean with ease when you use this 57" two compartment commercial sink with one 18" drainboard from Regency Tables and Sinks. Made of high-quality 16 gauge, type 304 stainless steel for reliable service, this gauge is thicker and much more durable than many similar sinks available. Additionally, type 304 stainless steel is exceptionally corrosion-resistant and easy to clean!

Each compartment offers rounded corners and ample space to either wash, rinse, or sanitize your items as needed. In addition, the drains include 3 1/2" basket strainers to eliminate the possibility of clogging. By regularly maintaining your drainage system, you will cut down on possible service and replacement costs.

Thanks to the high backsplash, water splashes will be confined inside the sink and then directly drip down into the drain. This added feature helps maintain the integrity of your wall and floor to keep your establishment in its best condition. Plus, this sink has two holes pre-punched to accept the faucet of your choice (sold separately). This model has galvanized steel legs and adjustable plastic bullet feet to keep the sink level and stable.
