Water Inlet Size	1/2 Inches

Notes & Details

This dish table package from Regency Tables & Sinks comes complete with everything you need to ensure fast, efficient dish room operations. Each piece of this package is built to last because it's made of 16 gauge type 304 series stainless steel.

Two 4' dish tables, one for soiled / dirty applications and one for clean applications, are included and come standard with stainless steel legs, gusset channels, and bullet feet. A 10 3/4" high backsplash on each table ensures that your walls stay protected from splashes and over-spray.

To properly pre-rinse dishes prior to placing into your commercial dish machine, you'll also receive a convenient splash mounted pre-rinse faucet and a 19 1/2" x 19 1/2" pre-rinse basket with slide bar. The faucet is easily secured to the wall with a 6" wall bracket and includes a 44" long flexible hose with 13" overhang, overhead spring, and spray valve assembly. This versatile faucet is installed on 8" centers.

For easy glassware sorting, this Regency dish table package includes a 42" wall mounted tubular rack shelf, perfect for holding 2 glass racks. This sturdy rack shelf is made of 1 5/8" diameter 18 gauge stainless steel tubing with 16 gauge type 304 stainless steel side brackets. It is made without welds and is supplied with all necessary hardware.
