Notes & Details

Ideal for setting up a washing, rinsing, and sanitizing station, this Regency 121" 3 compartment sink with 2 drainboards is a great addition to your busy commercial kitchen. It's constructed from high-quality, 16-gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18-gauge material. This sink features (2) 24" drainboards so you can easily wash and dry dishes and utensils in one convenient location. They're also dipped a minimum of 1/4" to facilitate better drainage. Welded construction contributes to the long-lasting use and overall strength of this sink / drainboard combo.

The 12" deep bowls are die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes 3 1/2" basket strainers to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 10 3/4" tall backsplash is included and comes complete with (4) 1 1/8" diameter holes punched on 8" centers to accommodate 2 faucets (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter galvanized steel with galvanized leg sockets and adjustable plastic feet. These features serve to prolong the life of your sink while adding exceptional strength to the unit.
