Number of Drainboards	None
Stainless Steel Type	Type 304
Style	0 Drainboards
Type	Straight / Line Sinks

Notes & Details

Ideal for setting up a washing, rinsing, and sanitizing station, this Regency 78" 3 compartment sink is a great addition to your busy commercial kitchen. It's constructed from high-quality, 16-gauge type 304 stainless steel, making it more corrosion-resistant and durable than other sinks made from thinner, 18-gauge material. This sink also features welded construction for long-lasting use and overall strength.

The 12" deep bowls are die-stamped to a minimum of 1/4" to ensure proper drainage. Plus, it includes 3 1/2" basket strainers to catch food debris, which prevents the drain from clogging. For easy cleaning, the compartment has rounded corners so you can rinse and wipe down the sink.

A 10" tall backsplash is included and comes complete with (4) 1 1/8" diameter holes punched on 8" centers to accommodate 2 faucets (sold separately). This sink also includes a 1 1/2" raised rolled edge, which is 2" tall on the front and both sides to contain splashes and overflow. The legs are constructed of 1 5/8" diameter galvanized steel with galvanized sockets and adjustable plastic feet. These features serve to prolong the life of your sink while adding exceptional strength to the unit.
