

ORBITAL FLOOR MACHINE

Minuteman®
Excellence Meets Clean

ROS 17

TECHNICAL SPECIFICATIONS

Head Size	17"
Velcro Driver Plate	Yes
Amps	12 Amp
RPM	1725 RPM Micro Orbits, 3/8" dia. 80 RPM Rotation
Horsepower	1.5 Horsepower
Pump Control	Multi-Position Switch
Cord	14/3 Gauge Pigtail, Standard Plug
Lift Handle	Yes
Sound Level	62 DB
Base Flips / Easy Pad Install	Yes
Wheels	10:
Spray Tip	Single, Anti-Drip, Adjustable
Pump	90 PSI Oscillating Pump No Priming
Spray Tank Capacity	3.9 Gallon
Optional Weight Sets	37 lbs. Each, 2 maximum
Free Floating Base	Yes, Full Floor Contact
Dimensions	48"H x 19"W x 28"L
Motor Height Clearance	12.5"

Tile

Terrazzo

For multi-purpose cleaning & restoration. The **ROS 17** is a multifunctional orbital floor machine. The orbital technology allows you to clean/restore every floor surface. The **ROS 17** combines traditional rotary scrubbing with orbital oscillation technology in one machine. The rotary motion spins at 80 RPM and the micro orbit oscillation is 1,725 orbits per minute. This combination of the two technologies increases performance, efficiency and productivity

RANDOM ORBITAL TECHNOLOGY

Revolutionary technology adapted to standard scrubbers and automatic scrubbers. This highly efficient orbital action maximizes productivity, cleaning ability, water/ chemical reduction and ROI. The technology eliminates user fatigue associated with additional steps required in standard scrubbing and restoration tasks.
