DURABLE HINGES

GLOBAL

AXXIS

Satellite's Global restroom has leaped to the top of the industry, becoming a staple cost effective restroom for operators. The clean, rigid design of the Global makes it great for events or construction sites. Key features include the new impact base, three roll toilet paper holder, large hands-free door latch and hover handle. Increased side panel thickness and a solid door frame make the Global one of the strongest units on the market. The interior layout creates a spacious feel that gives the end-user's more space to move around. Smooth side panels with shallow impressions reduce dirt and debris build up making the Global easy to clean.

The Axxis restroom is a significant innovation to our line of portable restrooms and the portable sanitation industry. When Satellite set out to redesign the Axxis we listened and learned from the very best, YOU, our customer! Featuring durable stainless steel hinges, hands-free door latch, large hover handle, a re-engineered door assembly and Satellite's impact base, the Axxis is not only an end-user's dream, but an operator's best friend. The improved features create a spacious feel that gives the users the room to move around freely. Smooth surfaces with shallow impressions reduce dirt and debris build up keeping the Axxis looking clean between services.
