Notes & Details

Warm up chilled foods or keep prepared menu items hot, safe, and ready to plate with this ServIt FW150 12" x 20" full size electric countertop food warmer with digital controls. Thanks to its specially designed internal heating elements, this unit allows you to hold your hot, fully-cooked offerings at food-safe temperatures for several hours at a time. Whether you operate a busy buffet line, concession stand, or self-serve station, this 1500W warmer offers the functionality and versatility needed to always provide fresh-tasting products!

Thanks to its industry-leading 8" well depth, this unit can fit (1) 12" x 20" full size, (2) 1/2 size, or (3) 1/3 size food pans that are 6" deep at once, which allows you to keep a variety of different foods warm simultaneously, making food prep a whole lot easier! For ultimate versatility, it also features a temperature range of 120 to 212 degrees Fahrenheit. The intuitive digital controls allow you to customize your heat output while also helping you distinguish between set and actual temperatures. Plus, this unit will preheat your food in as little as 30 minutes, offering a quick and effective way to warm up the products that your guests love most! The indicator light even lets you tell if the warmer is turned on at glance.

This 12" x 20" countertop food warmer is both lightweight and portable, making it an ideal solution for concession stands, buffets, and food trucks or caterers who are always on the go to their next event. It boasts a sturdy stainless steel water well that is sure to withstand the wear and tear of constant use. The warmer is fully insulated so heat stays inside the unit, warming your food and lowering your electricity use. Additionally, the interior is lined with corrosion-resistant 18 gauge stainless steel to make cleaning an effortless task. This unit requires a 120V electrical connection for operation.
