Type	Warmers

Notes & Details

Warm up chilled foods or keep prepared menu items hot, safe, and ready to plate with this ServIt twin well 7.5 qt. countertop food warmer with digital controls, 2 insets, 2 covers, and 2 ladles! Thanks to its specially designed internal heating elements, this unit allows you to cook unprepared foods and then hold your hot, fully-cooked offerings at food-safe temperatures for several hours at a time. For ultimate versatility, it features a temperature range of 120-212 degrees Fahrenheit. The intuitive digital controls allow you to customize your heat output while also helping you distinguish between set and actual temperatures. Plus, this unit will preheat your food in as little as 30 minutes, offering a quick and effective way to cook and warm up the products that your guests love most! This stainless steel warmer is fully insulated so heat stays inside the unit, warming your food and lowering your electricity use.

This kit comes complete with a 2 hole steam table adapter plate, making it easy to adapt your warmer to fit changing needs and changing menus. The plate fits over a full size 12" x 20" pan opening and contains (2) 8 3/8" diameter holes, which are compatible with the included (2) 7.5 qt. round vegetable inset pots. Plus, it's made from type 201, 19 gauge stainless steel for easy cleanability and exceptional durability. The welded clips help keep the adapter plate stationary in your food warmer, reducing the risk of accidental spills and maximizing warming or cooling efficiency.

To ensure success upon opening, this package features 2 stainless steel hinged covers and 2 ladles. These vegetable inset covers keep food tasting fresh and minimize heat loss with their innovative hinged design. The hinge allows you to flip half of the lid up and out of the way instead of creating space to rest an un-hinged cover. The notched rims provide the perfect place for resting your 6 oz. ladles, which boast color-coded PVC handles for portion control and the HACCP process.

Kit Includes:

- (1) ServIt FW150 12" x 20" full size electric countertop food cooker / warmer with digital controls - 120V, 1500W
- (1) Choice 2 hole steam table adapter plate with 8 3/8" holes - for 7.5 qt. insets
- (2) Notched / hinged stainless steel cover for 7.5 qt. insets
- (2) 6 oz. black coated handle ladles
- (2) 7.5 qt. vegetable inset pot
