Type	Warmers

Notes & Details

Keep your steamy vegetables, plump hot dogs, fluffy eggs, or sizzling bacon hot, safe, and ready to plate with this ServIt 12" x 20" full size dual well electric countertop food warmer with adapter plate and inset pots. Thanks to its specially designed internal heating elements, this unit holds your prepared foods at food-safe temperatures for several hours at a time. For ultimate versatility, it features a temperature range of 80 to 160 degrees Fahrenheit. The independent and intuitive digital controls allow you to customize your heat output for each well while helping you distinguish between set and actual temperatures, too. Plus, this unit will preheat in as little as 30 minutes, offering a quick and effective way to keep the products that your guests love most warm and ready to eat! The indicator light even lets you tell if the warmer is turned on at glance.

This kit comes complete with (2) 2 hole steam table adapter plates, making it easy to adapt your warmer to fit changing needs and changing menus. The plates fit over a full size 12" x 20" pan opening and feature (2) 8 3/8" diameter holes, which are compatible with the included 7 qt. round inset pots. Plus, they're made from type 201, 19 gauge stainless steel for easy cleanability and exceptional durability. The welded clips help keep the adapter plates stationary in your food warmer, reducing the risk of accidental spills and maximizing warming or cooling efficiency.

To ensure success upon opening, this package features 4 stainless steel hinged covers and 4 ladles. These vegetable inset covers keep food tasting fresh and minimize heat loss with their innovative hinged design. The hinge allows you to flip half of the lid up and out of the way instead of creating space to rest an un-hinged cover. The notched rims provide the perfect place for resting your 6 oz. ladles.

Kit Includes:

- (2) Choice 2 hole steam table adapter plates with 8 3/8" holes - for 7 qt. insets
- (1) ServIt FW200D 12" x 20" full size dual well electric countertop food warmer with digital controls - 120V, 2000W
- (4) Notched / hinged stainless steel covers for 7 qt. inset
- (4) 6 oz. one-piece stainless steel ladles with black coated handles
- (4) 7 qt. vegetable inset pots
