Notes & Details

Keep foods hot and ready to eat with this ServIt 54" stainless steel heated shelf warmer. This shelf warmer is perfect for holding food in buffet lines, at catering events, self-serve stations, or even in pass through areas whether you're warming pizzas or a pan of chicken wings. It's thermostatically controlled with gentle rope type elements, allowing you to set the temperature from 80 to 212 degrees Fahrenheit.

Durable and corrosion-resistant, this shelf warmer is constructed of 304 stainless steel, making it a long-lasting addition to your kitchen. It features adjustable rubber feet and a marine edge to prevent slippage. This shelf warmer is great for keeping your products warm and ready for your customers. This unit requires a 120V, 810W electrical connection for operation.
