Notes & Details

Keep all of your menu items piping hot and readily available with the ServIt three pan open well mobile electric steam table with undershelf and overshelf with sneeze guard! This powerful holding unit can hold three full size food pans full of pasta, meat, or side dishes in each 500W well. The body of this unit is constructed of durable 22-gauge type 430 stainless steel and heavy-duty hardware. The top and wells are made of 20-gauge type 304 stainless steel, while the cutting board support shelves are made of 16-gauge type 430 stainless steel. Plus, it comes with casters that provide mobility and help ensure easy service and cleaning.

To keep your extra serving utensils, food pans, and lids close at hand, use the undershelf for storage. The separate overshelf is also great for storing supplies, as well as for serving plated meals. Its attached acrylic sneeze guard panel even helps to shield your culinary creations from harmful pathogens. It's easy to install, too.

For extra convenience, the steam table features a polyethylene 8" deep by 1/2" thick cutting board that gives you a little extra work space for changing out food pans or filling plates. For optimum heating versatility, each individual well is independently controlled by an infinite control knob. Although intended for dry use, this steam table can be used wet with a compatible spillage pan (sold separately). A 120V electrical connection is required for the 7'3" power cord.
