Power Type	Electric
Temperature Range	86 - 194 Degrees F
Temperature Settings	Adjustable

## Notes & Details

Keep your pizzas hot, fresh, and ready to enjoy by choosing this ServIt PDW12D2P 12" pizza / pretzel warmer with 2 doors, a 4-shelf rotating rack, and a pretzel rack. Add this unit to your pizza shop, kiosk, concession stand, movie theater, or food truck to hold freshly-made pizzas or hot soft pretzels and show them off to your customers. This pizza warmer offers a chrome-plated rotating rack that can hold up to (4) 12" pizzas. It also comes with a pretzel rack for increased menu versatility. When this pizza warmer is installed on your counter, it will draw in customers with bright LED lighting and decals on three sides of the unit. It has four glass sides so customers can see your delicious pies or savory pretzels from any angle, and the double glass doors allow simple loading or unloading from the front or back. This makes the warmer great for self-serve applications as employees can load the warmer from one side and customers can serve themselves from the other!

Inside, the cabinet features a water pan that provides passive humidity to prevent food from drying out before being served. The adjustable heat control offers a range of 86-194 degrees Fahrenheit. It requires a 120V electrical connection and has an output of 800W.
