Type	Pizza Warmers

Notes & Details

Keep your packaged churros and other snacks hot, fresh, and ready to enjoy by choosing this ServIt 18" churro self-service countertop display warmer with 4-shelf rotating pizza racks! Add this unit to your pizza shop, kiosk, convenience store, concession stand, movie theater, or food truck to hold freshly made churros and other hot foods and show them off to your customers. This countertop warmer offers a chrome-plated rotating rack that can hold up to (4) 18" pizzas. You also have the option to serve churros by using the 18" churro rack made of durable chrome-plated metal. With a total of 16 angled prongs, this rack is perfect for holding traditionally shaped churros.

When this warmer is installed on your counter, it will draw in customers with bright LED lighting and decals on 3 sides of the unit. It has 4 glass sides so customers can see your delicious snacks from any angle, and the double glass doors allow simple loading or unloading from the front or back. This makes the warmer great for self-serve applications as employees can load the warmer from 1 side and customers can serve themselves from the other!

Customize the outside of this cabinet with ServIt churro and pizza decal sets, which comes with 3 decals each, exactly what you need to outfit 1 warmer. They offer bright, colorful graphics so customers can tell from a distance what you have to offer. Each unit comes with 1 pack of 3 "Hot, Sweet, and Crispy Churro" decals, as well as 1 pack of 3 "Fresh Hot Pizza" decals for use with the included pizza rack so you can draw in hungry customers and boost sales! Inside, the cabinet features a water pan that provides passive humidity to prevent food from drying out before being served. The adjustable heat control offers a range of 86-194 degrees Fahrenheit. It requires a 120V electrical connection and has an output of 800W.
