Notes & Details

Keep your packaged sandwiches, hot dogs, or snacks hot, fresh, and ready to enjoy by choosing this ServIt PDW18D2S countertop display warmer with 2 doors and 4 shelves. Add this unit to your pizza shop, kiosk, convenience store, concession stand, movie theater, or food truck to hold freshly-made wrapped sandwiches or other hot foods and show them off to your customers. This countertop warmer offers four chrome-plated shelves that can hold pizzas up to 18" or any other hot grab-and-go food. When this warmer is installed on your counter, it will draw in customers with bright LED lighting and decals on three sides of the unit. It has four glass sides so customers can see your delicious pies or savory snacks from any angle, and the double glass doors allow simple loading or unloading from the front or back. This makes the warmer great for self-serve applications as employees can load the warmer from one side and customers can serve themselves from the other!

Inside, the cabinet features a water pan that provides active humidity to prevent food from drying out before being served. The adjustable humidity and heat control offers a range of 86-194 degrees Fahrenheit. It requires a 120V electrical connection and has an output of 1700W.
