Physical and performance characteristics shown above are obtained from tests recommended by PSTC, ASTM, government agencies or Shurtape Technologies, LLC, Quality Assurance and Technical Service departments and do not represent a guarantee of product performance. Individual rolls may vary slightly from these averages. The user should determine whether the product is fit for a particular purpose and is suitable for the user's method of application before use.

*This product has been found to conform to the Consumer Product Safety Commissions' (CPSC) "Labeling of Hazardous Art Materials Act" (LHAMA) using a third party toxicologist under ASTM D-4236. LHAMA requires that arts & crafts products sold in the US be reviewed in this manner to determine if any hazardous materials are present through normal product use and to warn consumers if such hazardous materials exist through specific language dictated by a toxicologist. The inclusion of "ASTM D-4236" in the Applicable Standards list on this page indicates a toxicologist has reviewed the product and has found no hazardous materials present that would require a warning statement.
