Notes & Details

Durable, reliable, and efficient, this Solwave commercial microwave is a must-have addition to any quick-service food operation. With 1000W of power, this space-saving countertop appliance can warm soups, sandwiches, pre-packaged lunches, beverages, and much more in a matter of seconds! A sleek, stainless steel exterior ensures durability, while the slim design allows this item to be placed virtually anywhere. Additionally, you can stack multiple units atop one another to increase productivity while still maintaining a compact footprint.

Five built-in power levels and 100 programmable menu settings will provide the ideal time and temperature setting for a wide variety of foods. In addition, the 3-stage cooking feature enables further customization and flexibility in preparing foods exactly the way you want them.

For your convenience, this unit features a see-through door that allows you to see your food products from the outside. This way, you'll always be able to monitor the progress of your items without opening the door to check. The lighted, stainless steel interior wipes clean with ease. And, If you need the appliance to be a little more discreet while in use, the beep volume can be adjusted to three different levels.
