

Solwave 2100W Stackable Commercial Microwave with Large 1.2 cu. ft. Interior and Push Button Controls - 208/240V

#180MW2100T

Item #: 180MW2100T Qty: _____

Project: _____

Approval: _____ Date: _____

Certifications

Stackable

UL Listed, US

6-20P

ETL Sanitation

Technical Data

Width	22 5/8 Inches
Depth	20 5/8 Inches
Height	14 1/2 Inches
Interior Width	14 3/16 Inches
Interior Depth	16 1/16 Inches
Interior Height	8 13/16 Inches
Hertz	60 Hz
Phase	1 Phase
Voltage	208/240 Volts
Wattage	2100 Watts

Technical Data	
Capacity	1.2 cu. ft.
Color	Silver
Control Type	Push-Button
Cooking Stages	3
Features	Digital Display ETL Sanitation Programmable Stackable UL Listed
Material	Stainless Steel
Microwave Usage Level	Medium Duty
Number of Power Levels	4
Plug Type	NEMA 6-20P
Power Type	Electric
Type	Microwaves
Usage Per Day	Less Than 150 Times

Notes & Details

Durable, reliable, and efficient-this Solwave premium commercial microwave is a must-have addition to any large scale or quick-service food operation. With 2100W of power, this space-saving countertop appliance can warm soups, sandwiches, pre-packaged lunches, beverages, and much more in a matter of seconds. A polished, stainless steel exterior will add style to your dining service area, while the slim design allows this item to be placed virtually anywhere. Additionally, you can stack multiple units atop one another to increase productivity while still maintaining a compact footprint.

Four built-in power levels and 100 programmable menu settings will provide the ideal time and temperature setting for a wide variety of foods. In addition, dual magnetrons enable 3-stage cooking for further customization and flexibility in preparing foods exactly the way you want them. One touch time options make daily operation easier than ever before and, on this unit, can be set for anywhere from 10 seconds to 3.5 minutes.

These integrated options also help streamline use during busy periods of time in your dining establishment. The durable stainless steel exterior adds durability, while the spacious, 1.2 cu. ft. stainless steel cavity with ceramic platform provides ample room. Designed with energy conservation in mind, this microwave oven boasts a motor driven double rotating antenna that provides efficient energy distribution while cooking.

Thanks to an automatic cool down feature, the built-in fan operates for 60 seconds after use, allowing the microwave to continue to operate at peak performance without overheating. If you need the appliance to be a little more discreet while in use, the beep volume can be adjusted to three different levels, including off.
