Specialty Warmer Small Capacity Warmer

SPECIFICATION SHEET

FAST FACTS

Small Capacity Warmers heat and hold dips, sauces and more with a water bath that prevents hot spots and delivers even heating within this NSF listed rethermalizer

APPLICATIONS

- Melt small batches of chocolates and candies for dipping treats
- Warm fresh sauces and dips for sides or starters

DETAILS

- Simplify specialty dipping – melt small batches of chocolates and candies
- Lift-off lid doesn't get in the way while dipping
- Accurate, adjustable thermostat prevents scorching and burning

SMALL CAPACITY WARMER MODEL: FS-2

Server model FS-2 Small Capacity Warmer is constructed of stainless steel and comes complete with a 1 ½ qt stainless steel bowl, 1 oz ladle and lift-off lid. The adjustable thermostat controls a 250 watt heating element. Temperature settings are marked on the knob – ranges 75°F to 210°F – and power is controlled by an ON/OFF rocker switch and a 72" cord. NSF listed. C-UL-US listed. Two-year warranty.
