BULK

5' SPIRAL SPIN N DROP

GUMBALL MACHINE

The five foot Spin N Drop Gumball Machine dispenses 1" gumballs (or 1-inch round products) along a high quality and fascinating spiral track. This machine includes a drop through coin mechanism to prevent jams. If someone inserts a coin that does not pay for the item, it accepts the coin into the coin area without jamming. The all metal coin mechanism will work well for years to come and accepts both US & Canadian coins. It can also be set to free-spin to work without coins.
